Guidance Information

- All activities must comply with relevant environmental, legislative, and/or regulatory requirements set out in the *New Zealand Environmental Care Code*, Health and Safety in Employment Act 1992, Injury Prevention, Rehabilitation, and Compensation Act 2001, and their subsequent amendments. The *New Zealand Environmental Care Code* is available from the Department of Conservation, Head Office, PO Box 10420, Wellington, <http://www.doc.govt.nz/>.
- There are minimum assessor requirements for assessment against this unit standard. The details of these requirements are available on the Sfrito website <http://www.sfrito.org.nz>.

Outcomes and performance criteria

Outcome 1

Repair windsurf board outer skin.

Performance criteria

- Repairs to major piercing of outer skin are watertight.
- Patch repairs to outer laminate of board ensure that board functions to original condition.
- Deck resurface ensures that optimum grip is assured.
- Delaminated board outer skin is reattached to meet original manufacturer's specifications.

Outcome 2

Make advanced windsurf repairs.

Performance criteria

- 2.1 Finbox and/or mast track repair ensure that finbox and/or mast track meet original manufacturer's specifications.
- 2.2 Finbox repair meets technology and safety criteria of industry.
- 2.3 Fins and dagger board are rebuilt to meet original manufacturer's specifications.
- 2.4 Footstrap mounting repairs meet original manufacturer's specifications.
- 2.5 Full product inspection identifies potential problems and areas of potential failure.

This unit standard is expiring. Assessment against the standard must take place by the last date for assessment set out below.
