

Make hand tools and construct a running mould for plastering

Level 2

Credits 6

Purpose People credited with this unit standard are able to: make hand tools for plastering; set up work area; form a profile; form the running mould; and clean up work area.

Subfield Construction Trades

Domain Solid Plastering

Status Registered

Status date 26 May 2004

Date version published 25 January 2008

Planned review date 31 May 2008

Entry information Open.

Accreditation Evaluation of documentation and visit by NZQA and industry.

Standard setting body (SSB) Building and Construction Industry Training Organisation

Accreditation and Moderation Action Plan (AMAP) reference 0048

This AMAP can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Special notes

1 Definitions

Industry practice refers to the expected standard required in an on-site environment in which credit for this standard is sought; such standards may be set down in: industry codes of practice; documented procedures specific to standards endorsed by the BCITO – Solid Plastering and Floor and Wall Tiling Industry National Advisory Group; best practice descriptors; standards of practice which are regarded as desirable benchmarks for operations endorsed by the BCITO – Solid Plastering and Floor and Wall Tiling Industry National Advisory Group.

Site safety plan refers to the employer's documented safety plan which demonstrates compliance with the Health and Safety in Employment Act 1992;

The word *plant* is used as in the Health and Safety in Employment Act 1992 to mean: appliances, equipment, fittings, furniture, implements, machine, machinery, tools, vehicles, plus parts, controls, and anything connected to such plant.

Specifications refers to any, or all of the following: manufacturer's specifications and/or recommendations; site and/or work specific requirements.

- 2 All work practices must comply with the following regulations, legislation and standards:
Health and Safety in Employment Act 1992;
Health and Safety in Employment Amendment Act 2002;
Health and Safety in Employment Regulations 1995;
Resource Management Act 1991;
Resource Management Amendment Act 2003;
NZS 4251.1:2007 *Solid plastering – Cement plasters for walls, ceilings and soffits*.
New Zealand Standards are available from www.standards.co.nz.

Elements and performance criteria

Element 1

Make hand tools for plastering.

Range wood floats, scratcher, slush trowel.

Performance criteria

- 1.1 Tools are constructed of materials, and to a shape, which meets the requirements of the plastering task.
- 1.2 Tools maintain shape throughout use.

Element 2

Set up work area.

Range interior, exterior.

Performance criteria

- 2.1 Work requirements are determined in accordance with plans and specifications.
- 2.2 Plant and materials are selected in accordance with specifications.

Element 3

Form a profile.

Performance criteria

- 3.1 Template is prepared in accordance with design specifications and working drawings.
- 3.2 Finished profile is in accordance with design specifications and working drawings.

Element 4

Form the running mould.

Performance criteria

- 4.1 Stock is cut to shape, and in accordance with specifications.
- 4.2 Mould is assembled in accordance with specifications.

Element 5

Clean up work area.

Performance criteria

- 5.1 All activities comply with the requirements set down in the site safety plan.
- 5.2 All plant is used, maintained, cleaned, and stored in accordance with manufacturer's and/or supervisor's requirements, and industry practice.
- 5.3 All operations are completed without damage to project, plant, and materials.

Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
