Guidance Information

1 Definitions

industry practice refers to the expected standard required in an on-site environment in which credit for this standard is sought; such standards may be set down in: industry codes of practice; documented procedures specific to standards endorsed by the BCITO - Solid Plastering and Floor and Wall Tiling Industry National Advisory Group; best practice descriptors; standards of practice which are regarded as desirable benchmarks for operations endorsed by the BCITO - Solid Plastering and Floor and Wall Tiling Industry National Advisory Group;

on site refers to a wide range of building and construction environments within which the trade skills must be applied;

site safety plan refers to the employer's documented safety plan which demonstrates compliance with the Health and Safety in Employment Act, 1992.

2 The word *plant* is used as in the Health and Safety in Employment Act, 1992 to mean: appliances, equipment, fittings, furniture, implements, machines, machinery, tools, vehicles, plus parts, controls, and anything connected to such plant.

3 *Specifications* refers to any, or all of the following: manufacturer's specifications and/or recommendations; site and/or work specific requirements.

4 All work practices must comply with the following Regulations, legislation and standards:

Health and Safety in Employment Act, 1992;

Health and Safety in Employment Amendment Act, 2002;

Health and Safety in Employment Regulations, 1995;

Resource Management Act, 1991;

Resource Management Amendment Act, 2003;

New Zealand Standard 4251: 1998, *Code of Practice for Solid Plastering*;

AS2592: 1983, *Gypsum Plaster for Building Purposes*.
