Standard setting body (SSB) Building and Construction Industry Training Organisation

Accreditation and Moderation Action Plan (AMAP) reference 0048

This AMAP can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Special notes

1 Definitions

Specifications refer to documented specifications and may include any of the following: drawings, project or job requirements, manufacturers' specifications, recommendations or instructions, material specifications.

Work site practices refer to the practices generally acknowledged by the industry as being acceptable when no specific work site is relevant or available and refers to the documented procedures specific to a work site which set out the standard and required practices of that work site.

Plant is used as in the Health and Safety in Employment Act 1992 to mean: appliances, equipment, fittings, furniture, implements, machine, machinery, tools, vehicles, plus parts, controls, and anything connected to such plant.

- 2 Credit for this unit standard can be achieved on site through a registered assessor, or in a simulated environment with an accredited training provider.
- 3 All work practices must comply with the following:
Building Act 2004;
Health and Safety in Employment Act 1992;
Health and Safety in Employment Regulations 1995;
Resource Management Act 1991;
New Zealand Building Code.

Elements and performance criteria

Element 1

Prepare and set out for interior proprietary partitions under supervision.

Performance criteria

- 1.1 Type of partition is identified from manufacturer's specifications.
- 1.2 Work site measurements are confirmed in accordance with work site practice.
- 1.3 Materials are accepted and stored to ensure specified quality is maintained in accordance with work site practice.
- 1.4 Positions of partitions are set out in accordance with working drawings and work site practice.
- 1.5 All operations are completed without damage to the work site, tools, or plant.

Element 2

Install interior proprietary partitions under supervision.

Range plain, single door, single window.

Performance criteria

- 2.1 Partition framing is erected to line, level, and plumb.
- 2.2 Linings and panels are fixed in accordance with manufacturer's specifications.
- 2.3 Partition details are completed in accordance with manufacturer's specifications.
- 2.4 All operations are completed without damage to the work site, tools, or plant.

Element 3

Clean up after work is completed.

Performance criteria

- 3.1 Tools and plant are maintained, cleaned, and stored in accordance with work site practice.
- 3.2 Waste material is disposed of and work site is cleaned in accordance with work site practice.

Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.

Comments on this unit standard
