

Title	Implement notification requirements for infrastructure works		
Level	5	Credits	3

Purpose	People credited with this unit standard are able to: establish the impact of infrastructure works site activities, and identify and notify those affected by infrastructure works.
----------------	--

Classification	Infrastructure Works > Infrastructure Works Supervision
-----------------------	---

Available grade	Achieved
------------------------	----------

Explanatory notes

- 1 Assessment against this unit standard must take place in a workplace environment. Assessment parameters will depend on company and site specific equipment, procedures, and practices. Practices must reflect industry best practice and comply with legislative requirements.

- 2 Definitions
Company requirements include the policy, procedures, and methodologies of the company. They include legislative and regulatory requirements which may apply across the company or to a specific site. Requirements are documented in the company’s health and safety plans, traffic management plans, contract work programmes, quality assurance programmes, policies, and procedural documents.
Contract specifications include plans, diagrams, and special technical conditions. They do not include special administrative conditions.

Outcomes and evidence requirements

Outcome 1

Establish the impact of infrastructure works site activities.

Evidence requirements

- 1.1 The nature of disruption caused by worksite activities is established in accordance with contract specifications.

Range three of – access, services, obstructions, environmental hazards, public safety, other.

1.2 The extent of disruption caused by worksite activities is established and recorded in accordance with contract specifications.

Range commencement date, completion date, hours of work, starting location, finishing location, proposed programme.

Outcome 2

Identify those affected by infrastructure works.

Evidence requirements

2.1 Those affected by infrastructure works are identified.

Range may include but is not limited to – shops, businesses, schools, adjoining landowners, adjacent households, pedestrians, cyclists, motorists.

2.2 Other parties affected by infrastructure works are identified.

Range may include but is not limited to – local authority, service authority, iwi, police, emergency services, event organisers, transport services.

Outcome 3

Notify those affected by infrastructure works.

Range two notifications.

Evidence requirements

3.1 Notifications for members of the public are arranged in accordance with contract specifications and company requirements.

3.2 Notifications for other parties are carried out in accordance with contract specifications and company requirements.

Planned review date	31 December 2015

Accreditation and Moderation Action Plan (AMAP) reference	0101
--	------

This AMAP can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Consent requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
