|------------------------|----------|

Guidance Information

- 1 Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with relevant legislative and industry requirements.
- 2 Legislation relevant to this unit standard includes: Health and Safety at Work Act 2015; and all subsequent amendments and replacements.
- 3 Definitions
Industry requirements refer to relevant policies, processes, methodologies, industry codes of practice, site specific health and safety plans, standard operating procedures, site safety plans, quality plans, work plans, traffic management plans, contract work programmes, job safety analysis, safe work method statements, job instructions, manufacturer's requirements, contract specifications, manuals, procedural documents.
Plans refer to rural services plan, work plans, environmental plans, site safety plans, construction plans.

Outcomes and performance criteria

Outcome 1

Use plans to locate features on an infrastructure worksite.

Performance criteria

- 1.1 The purpose of plans and what they cover are explained.
- 1.2 All features on a plan relevant to own work are identified and described in terms of the information they convey.
- 1.3 Set out on the worksite is related back to the plan.

- 1.4 Legend is interpreted, and features are located on site in accordance with site plan.
