Purpose	People credited with this unit standard are able to respond to an aircraft emergency and an emergency in an airport building.
----------------	---

Classification	Aviation > Airport Operations
-----------------------	-------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Definitions
Aerodrome means any defined area of land or water intended or designed to be used either wholly or partly for the landing, departure, and surface movement of aircraft; and includes any building, installations, and equipment on or adjacent to any such area used in connection with the aerodrome or its administration;
 The term *airport* refers to aerodrome as per Civil Aviation Rules.
- 2 Reference to *enterprise procedures* means that all activities must comply with the requirements contained in the current airport exposition, current airport company manuals and procedures, and any relevant legislative and/or regulatory requirements, which may include but are not limited to: Civil Aviation Act 1990, relevant Civil Aviation Rules, New Zealand Defence Force (NZDF) Policy, and the Fire and Emergency New Zealand (Fire Safety, Evacuation Procedures, and Evacuation Schemes) Regulations 2018.
- 3 This unit standard may be assessed against in an aviation workplace in real or simulated situations, or in a training environment if simulated workplace conditions are able to be provided that reflect the standards of an aviation workplace.

Outcomes and performance criteria

Outcome 1

Respond to an aircraft emergency.

Range emergencies may include but are not limited to – crash on the airfield, crash off the airfield, full emergency, local stand-by, aircraft security incident, unlawful interference.

Performance criteria
