

Title	Install interior boat cabinetry		
Level	4	Credits	10

Purpose	People credited with this unit standard are able to prepare for, and carry out, the installation of interior boat cabinetry.
----------------	------------------------------------------------------------------------------------------------------------------------------

Classification	Boating Industries > Boatbuilding
-----------------------	-----------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 All work practice must meet recognised codes of practice and documented worksite health and safety procedures (where these exceed code) for personal, product, and worksite health and safety, and must meet the obligations required under the Health and Safety at Work Act 2015, Health and Safety Employment Regulations 1995, Resource Management Act 1991, Hazardous Substances and New Organism Amendment Act 2015, and any subsequent amendments.
- 2 This unit standard does not assess the manufacturing of cabinetry or cabinetry components.
- 3 Definitions
Job specifications refers to the specification requirements of the job being undertaken.
Workplace policies and procedures refers to the documented procedures and policies providing guidelines of the tasks and activities carried out in the workplace. This typically includes relevant health and safety policies to manage risk in the workplace.
- 4 Range
 Evidence of four pieces of cabinetry is required – a drawer suite, hanging locker, one fixed item, one removable item.

Outcomes and performance criteria

Outcome 1

Prepare for installation of interior boat cabinetry.

Performance criteria

- 1.1 Fastenings and adhesives are selected that are compatible with hardware and substrate materials, and meet job specifications for durability and appearance.

- 1.2 Installation position is located in accordance with job specifications.
- 1.3 Any variation to the installation position is reported to the supervisor in accordance with workplace policies and procedures.
- 1.4 Surfaces are prepared for installation in accordance with job specifications.

Outcome 2

Carry out cabinetry installation.

Performance criteria

- 2.1 Substrates and installation position are checked for accuracy in accordance with job specifications.
- 2.2 Cabinetry units are attached to the boat structure in accordance with job specifications.
- 2.3 Completed installation is checked and remedial action is taken, if required, to ensure job specifications are met.
